

Dear IEEE CS Conference Organizers,

Thank you for your leadership as an IEEE Computer Society conference organizer. We deeply appreciate your time and effort in creating high quality technical programs for our technical communities.

Many nonmembers are not aware of the option of joining the IEEE Computer Society as a Society Affiliate at a substantially lower cost than joining as a regular member and yet receive the member discount on any IEEE Computer Society conference. For example, now through 15 August, the dues to join as a Society Affiliate are only \$50.00 and member benefits are provided through 31 December 2011.

Please make your authors and other potential conference attendees aware of this short window to join and receive a discount on their conference registration fee this year. We request you to post the following on the conference web site and include this in any message that you send to your community.

**Join as an IEEE Computer Society Affiliate for \$50 (Students \$20) and Register at Member Rate**

**This offer ends 15 August 2011**

To join: [www.computer.org/join](http://www.computer.org/join)

Questions? Contact Customer Service: [help@computer.org](mailto:help@computer.org)

I extend best wishes for success for your conference.

Best regards,

Rangachar Kasturi

Vice President, IEEE CS Member & Geographic Activities

2008 President, IEEE Computer Society
