

SMC-IT 2021

8th International Conference on

Space Mission Challenges for Information Technology

Online — July 27-29, 2021

Dear Potential Corporate Donor,

The 2021 International Conference on space Mission Challenges for Information Technology (SMC-IT) will be held online from July 27 to July 29, 2021. Since 2003, SMC-IT has gathered system and software engineers, scientists, system engineers, and leaders in the space industry for the purpose of the most advanced ideas in the area of space information technology (IT). The conference is sponsored by the IEEE Computer Society and the Technical Committee on Software Engineering and is well-attended with a broad cross-section of the space community as well as many international attendees.

As in our past conferences, we are providing an opportunity for companies to partner with us as "Corporate Supporting Donors". This allows companies to combine their attendance while being prominently featured over the 3-day event. SMC-IT Corporate Supporting Donors will have the opportunity to choose from having their own speaking slots, mini-workshops, training classes and other special incentives.

This opportunity allows companies to promote themselves to a specific, targeted audience aligned to their work in the space domain. The 2021 SMC-IT Conference will feature keynote talks, mini-workshops, poster sessions, and special noon-time talks. Some of our past speakers have included individuals such as Dr. Vint Cerf of Google, Dr. Malina Hills of the Aerospace Corporation, Dr. James Gosling, and many other leaders in the space community. Levels of support include:

Silver: \$1,500: Company logo on the website and the link to a promotional white-paper, and attendee mailing list.

Gold: \$2,500: A timeslot reserved for sponsored talks, company logo, link to promotional material, and attendee mailing list.

Platinum: \$3,500: Daily breakout room for targeted talks and training sessions, company logo, link to promotional material, and attendee mailing list.

Please contact our organizing committee member Michelle Carter at smc-it-chairs@baylor.edu if you are interested in becoming a Corporate Donor. Please see the conference web page at: <http://smc-it.org> for more details. We are looking forward to working with you at this event.
