

*Al Cangahuala is the Mission System Manager for the Europa Clipper Mission at JPL. Al has a technical background in interplanetary navigation, and was the manager of the Mission Design and Navigation Section at JPL prior to working on Europa Clipper. He served as the Chair of the AIAA Astrodynamics Technical Committee, and he currently serves on the Astrodynamics Committee of the International Astronautical Federation. He was a NASA Astronaut Selection Finalist in 2000.*

*Al earned a BS, MS, and PhD in Aeronautics/Astronautics, as well as a BS in Earth, Atmospheric, and Planetary Science, from MIT. He serves on the board of the Pennsylvania Governor's School for the Sciences, and enjoys presenting on current and upcoming solar system exploration missions.*
